

Laura Lundin

LAURA LUNDIN

Front-end/Full-stack Developer

Portfolio Website

ABOUT ME

From senior surgical nurse to a front-end developer - my path into tech has been anything but traditional.

In 2017, a leader described me as conscientious — a word that has stayed with me ever since. Working in healthcare and hospitality taught me how much clarity, responsibility, and teamwork matter, especially when people are stressed and things need to work.

Today, I'm studying Front-end Development at Hyper Island and building digital products with that same mindset — trying to make things easier to understand, easier to use, and more thoughtful for the people using them.
